PROJECT

PACKBAGS | MONGO DB, EXPRESS, NODE.JS, BOOTSTRAP
2021

→ A full stack web application for campsites.
→ Stellar camp is a very versitle website bulit by using mongodb in the backend and bootstrap in the frontend.
→ Uses intergrated javascript libraries such as Express, session, passport ,mongoose to build a very beautiful and user friendly website.
→ The users can create profile which could include man informations on the user(full name,email,phone number and join date)their campgrounds and the options to edit their profile or delete their account.

OLX CLONE | REACT.JS
2022

→ Designed and developed an olx clone using react.js.
→ Implemented proper routing, signup and login with authentication, the users can also add items they are selling and remove it, if it is already sold.
→ Incorporated Google firebase for storing,authenticating and retrieving the data.

NETFLIX CLONE | REACT.JS
2022

→ Constructed a dynamic,responsive Netflix landing page clone using React.js .
→ Incorporated TMDB api for the metadata on the landing page.
→ Charted the landing page using various React.js functions and utilities

COURSEWORK

WEB DEVELOPER BOOTCAMP | UDEMY
2021

→ Created complex web apps with multiple models and data association and Use Express and MongoDB to create full-stack JS applications.
→ Used tools like Postman and hoppscotch to monitor and test API.
→ Recognized and prevented common security exploits like SQL-Injection XSS.
→ Used NodeJS to write server-side JavaScript
→ Conceptualised and created a blog web application from scratch using Node, Express, and MongoDB.
→ implemented Maps and Geocoding into the web application.

REACT.JS, THE COMPLETE GUIDE | UDEMY
2022

→ Built powerful, fast, user-friendly and reactive web apps.
→ Learned all about React Hooks and React Components.
→ Provided amazing user experiences by leveraging the power of JavaScript with ease.
→ Integrated UI libraries like Material UI and Bootstrap into the React apps.
→ Created a multi-page SPA with React router.
→ Dove into advanced topics like handling side effects,using reducers and using the context API.

SKILLS

PROGRAMMING

Proficient:
C • JavaScript • SQL • Java •CSS • HTML

Experienced:
Javascript • Node.js • css

Familiar:
Java • Shell • C

LIBRARIES/FRAMEWORKS

Node.js • Express • Passport • React.js • Bcrypt •Sessions

TOOLS/PLATFORMS

Git • Heroku • firebase •Github •Elephant SQL

EDUCATION

TOCH INSTITUTE OF SCIENCE AND TECHNOLOGY

BACHELORR'S IN TECHNOLOGY FIRE AND SAFETY ENGINEERING

2017 - 2021 | Kochi
School of Engineering
